

**It's like a hybrid car.
Only much more comfortable for your entire family.**

**Save up to 40%
on heating
bills this winter.**

This winter, you can shift from electricity to gas and back again for the most efficient heating you've ever experienced. It's possible with York's new Hybrid Comfort System™ the design that combines the savings of our electric Affinity Heat Pump with the on-demand heating power of our gas Affinity Furnace. So you save up to 40% on energy bills. You can even customize your Affinity Heat Pump with popular designer colors or college logo panels. Efficiency and self-expression. Only York gives you both. For more information, call your local York Dealer, or visit us at www.yorkupg.com.
